

WASHER SERIE 003

- Made from nylon-6 (PA-6), polyethylene (Ld-PE) or PVC
- Available in various colours
- The anti loss lip (F) is suitable for pre assembly
- Sizes DIN 125, DIN 433 and DIN 9021 available, D = DIN, E = ISO
- Resistant to corrosion and many chemicals
- Also available in assortment box 019
- Check our extensive ranges of nylon or metal screws and nuts

Colour description : Available in various colours.

Material:

Nylon-6 (PA-6)

Material number:

01

General information

A strong, tough and durable material. Suitable for connecting elements and other technical components. Thanks to self lubricant properties ideal for slide bearings. Always has to acclimatize for a few days after injection moulding, taking approximately 3% moisture to obtain its normal strenght. Operational temperature can go up to 100-120°C temporarily for non-critical parts. Many nylons are self extinguishing.
